**RE: Return to Work After Self- Isolation/Quarantine**

Members,

I know many of you are having to self-isolate/quarantine due to either returning from a trip outside the country, off due to having Covid-19 flu like symptoms or have been in close contact with someone with Covid-19. As you may be aware construction has been classified as an essential service and we need to continue working at this time. I know our employers are concerned about falling behind on current projects and it is imperative that our members keep in contact with their respective employers while off work. I would ask that you mutually discuss with your current employer a return to work plan to ensure a seamless transition back to work once you have completed your self-isolation/quarantine period. I would recommend contacting your employer 48 hours before returning to work to ensure they have enough time to coordinate your return. Communication is paramount between ourselves and our signatory contractors during these difficult times. I truly hope the measures both the Federal and Provincial governments are doing are enough to slow down the transmission of this virus. I wish you and your family continued health and safety during this time.

Fraternally Yours,

Jim Noon
